**INTERNATIONAL
ENERGY FAIR**

Platform for Innovation,
Partnerships and Growth

The Energy Industry Meeting

Point - The Energy Fair represents a leading platform for showcasing modern energy solutions.

Focus on sustainable and efficient energy systems.

Brings together key participants from the sector.

Combines business and professional segments.

- The place where the future direction of the energy sector is defined.

ENERGETIKA

ufi Approved International Event

One Place – Key Participants from the Energy Sector

The Fair brings together:

- Energy companies and manufacturers
 - Investors and project developers
 - Institutions and regulatory bodies
 - Engineering and consulting firms
 - Research and scientific organizations
- Connecting the entire energy ecosystem.

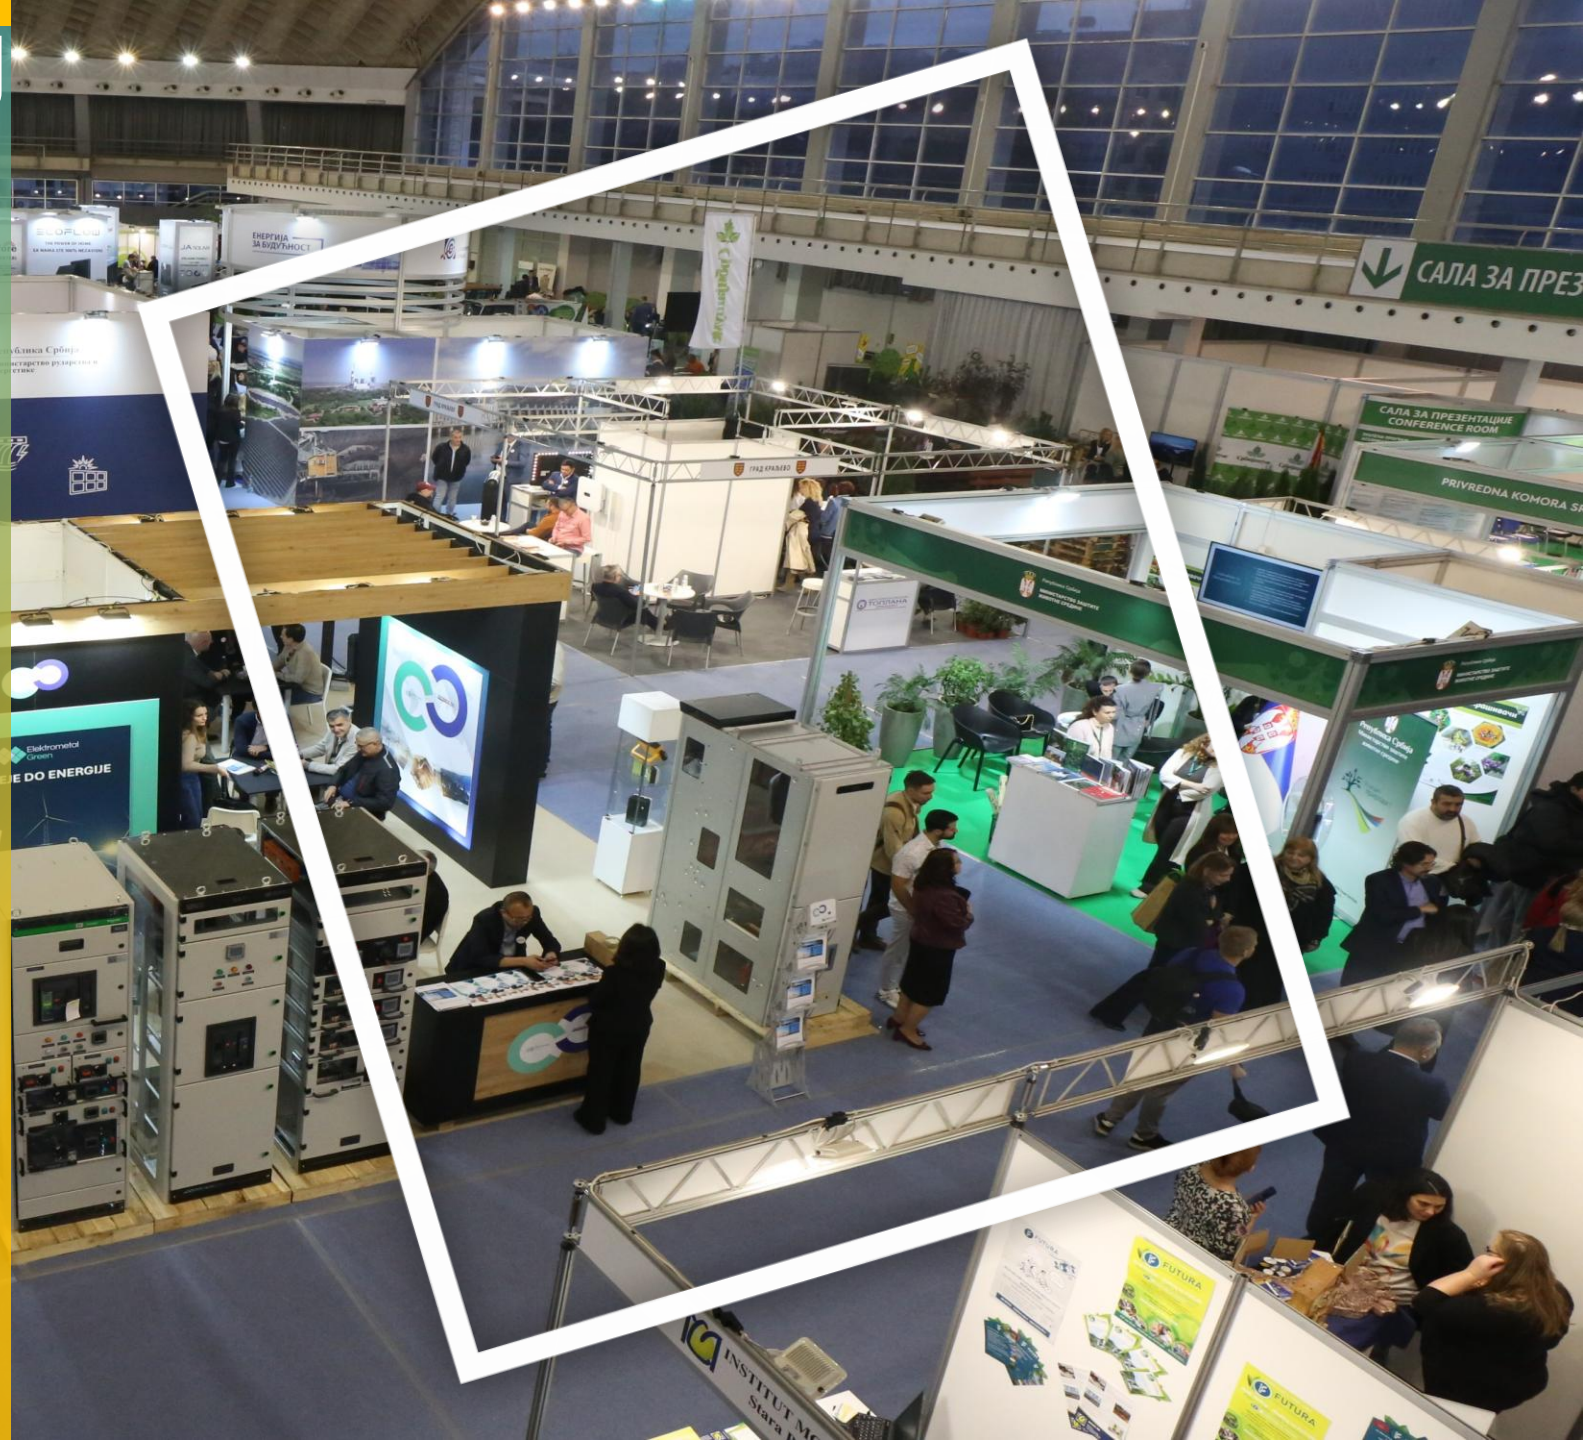

Innovations Shaping the Energy Future

Main sectors:

- Renewable and non-renewable energy sources
 - Energy efficiency
 - Electric power systems
 - Smart grids and digitalization
 - Industrial energy solutions
- Focus on technologies and investments.

Visibility at the Center of Energy Decisions

The Fair builds significant influence through:

- A large number of professional visitors
 - A regional and international character
 - Intensive B2B meetings
 - Exchange of knowledge and experience
- An ideal environment for business growth.

Partnerships Power the Energy

Additional activities:

- Conferences and professional gatherings
 - Panel discussions and presentations
 - Networking with decision-makers
 - Media and institutional support
- More than a fair – a platform for development.

Apply now and secure your place among the energy sector leaders.
